Prepare SDG data and metadata

Identify data sources based on the
[SDG metadata provided by the UN](#)

⬇

Model data in one of the following formats

| ⓘ CSV | SDMX-ML | SDMX-API |

⬇

Collect metadata for each indicator

⬇

Model metadata

Please note you only need to model metadata if you plan
on uploading files instead of using Prose

| ⓘ CSV | ⓘ Excel | ⓘ Markdown |

Set up an Open SDG platform

Create a platform by following the
[quick start guidance](#)

⬇

Do you want the platform to be available in any other
languages?

| ⓘ Yes |

⬇

Customise your platform by turning on
any [optional features](#)

⬊   ⬋

Add data and metadata to Open SDG platform

Data

| CSV | SDMX-ML | SDMX-API |

↙   ↘

| Upload files | ⓘ Use Prose |

Metadata

| Upload files | ⓘ Use Prose |
